# Virtual Reality Escape Room Experiences

Dive deep below the ocean surface with your team of explorers to uncover an ancient temple. In it you will find beautiful sealife, treasures, and a few more things that aren't quite as pleasant! As the placid undersea world begins to turn on you, will you be able to escape?

# Virtual Reality Escape Room Experiences

An evil alchemist, a hungry dragon. Hardly the town for a few hapless travelers! Accused of a crime you didn't commit, you must find a way to escape your prison before you meet your fiery fate.

# Virtual Reality Escape Room Experiences

You are on a mining platform on an asteroid mining yellow crystals. Your team is preparing for evacuation when a giant robot on wheels shoots your evacuation ship out of the sky! You'll need to destroy the giant robot before your ship can come back in and you've only got 10 minutes before the giant robot crushes you! Fortunately, your team has access to a giant laser that is powered by yellow crystals that can be found powering the robots around here. Using your laser swords and shields, you will have to deflect lasers, collect crystals and explode robots to survive.

The mad count Malin has been running evil experiments with dangerous creatures in his creepy manor. It's up to you to get inside, investigate – and make it out alive.

# Virtual Reality Escape Room Experiences

You and your pirate crew have fallen victim to a curse and transformed into fishmen! The only cure is locked deep within an island temple – but time is running out.

# Virtual Reality Escape Room Experiences

Dr. Steem has escaped and is planning his revenge against the town that has imprisoned him. He plans to load up his train with dynamite and blow it up when it reaches the town!

# Virtual Reality Escape Room Experiences

Hurtling through orbit, Space Station Tiberia is on a mission to intercept a 'planet killer' meteorite on a collision course with earth mere hours from now. Moments ago the station was struck by an intense radiation storm. Restoring functionality to the station and the anti-meteor laser array is the only thing between the human race and complete extinction.
